

## HOW TO ACCESS WEBSITE:

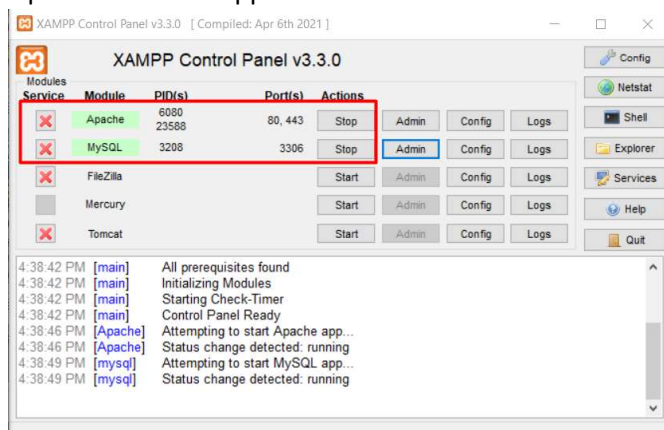

1. Download XAMPP: And just go through the prompts.
2. Download and extract: A2.2-main.zip
- 3.
4. Copy the extracted hold into C:\xampp\htdocs

5. And change the name of A2.2-main to “HalsHardware”

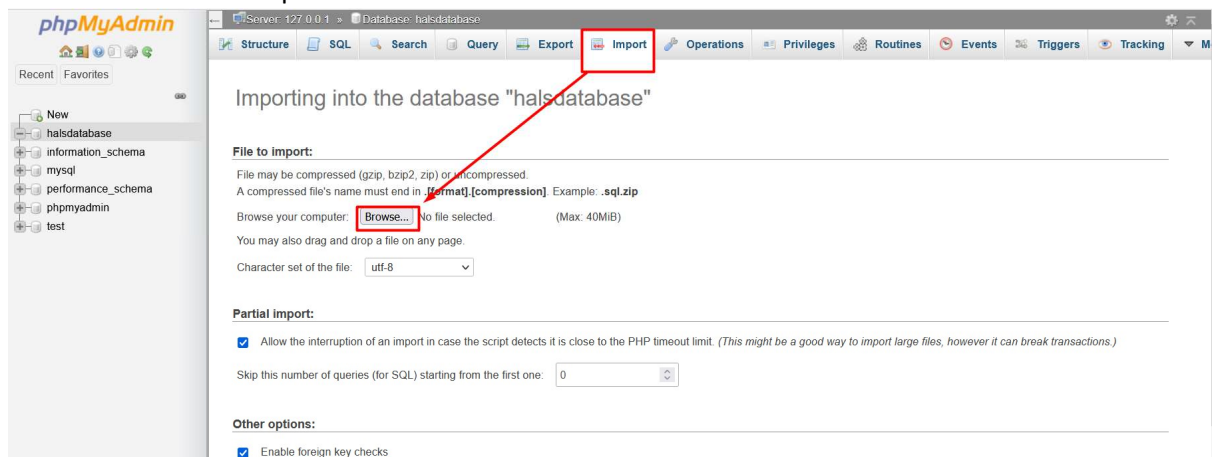

6. Open the XAMPP application and select start on both Apache and SQL:

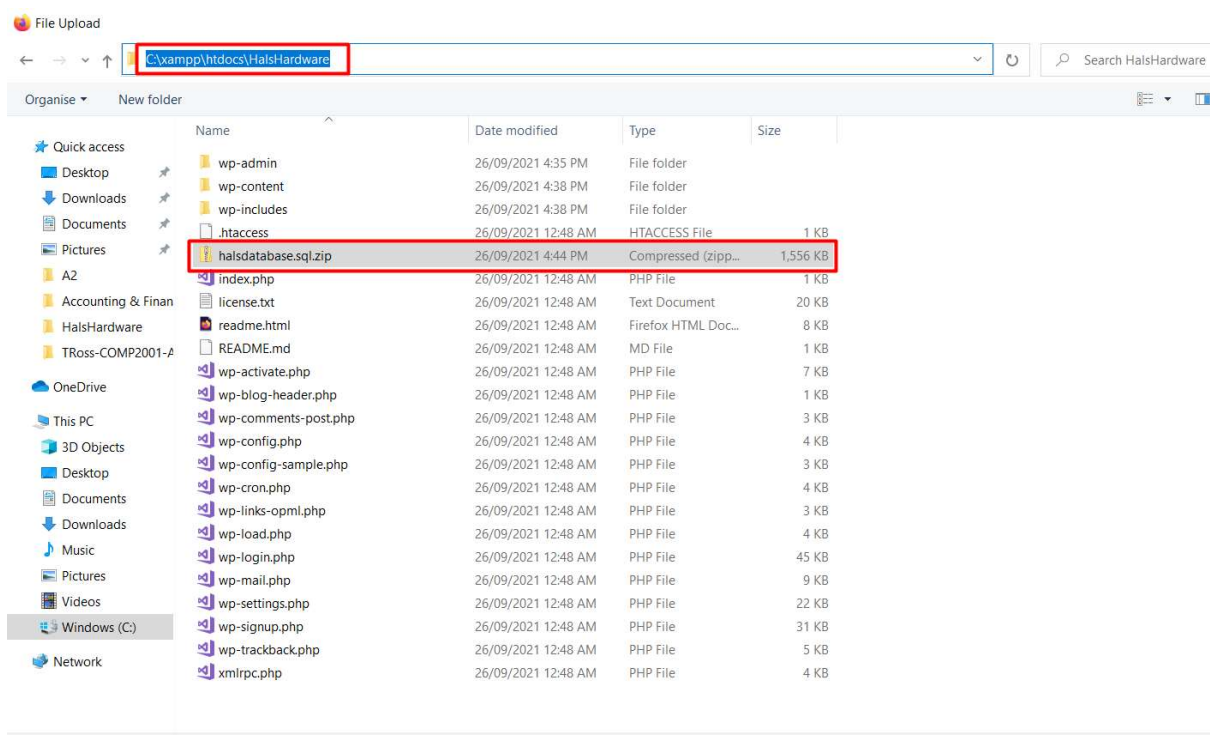

7. Select Admin on MySQL and type in the name "halsdatabase" and create

8. Once created select import than browse.

9. Go back into C:\xampp\htdocs\ and select Halshardware and select the halsdatabase.sql.zip

10. Scroll down to the bottom left-hand corner and press “Go”:

The screenshot shows the phpMyAdmin interface for the 'halsdatabase' database. The 'Import' tab is selected. The 'File to import:' section includes a 'Browse your computer:' button and a file name 'halsdatabase.sql.zip'. The 'Format:' section is set to 'SQL'. The 'Other options:' section has 'Enable foreign key checks' checked. The 'Format-specific options:' section has 'SQL compatibility mode' set to 'NONE' and 'Do not use AUTO\_INCREMENT for zero values' checked. A red box highlights the 'Go' button at the bottom right, with three red arrows pointing to it from the left.

11. 171 imports should be successful:

The screenshot shows the phpMyAdmin interface after the import process. A green message bar at the top states: 'Import has been successfully finished, 171 queries executed. (halsdatabase.sql.zip)'. The left sidebar shows the database structure with various tables listed, including 'wp\_actionscheduler\_action', 'wp\_actionscheduler\_claim', 'wp\_actionscheduler\_group', 'wp\_actionscheduler\_logs', 'wp\_commentmeta', 'wp\_comments', 'wp\_duplicator\_packages', 'wp\_links', 'wp\_options', 'wp\_postmeta', 'wp\_posts', 'wp\_termmeta', 'wp\_terms', 'wp\_term\_relationships', 'wp\_term\_taxonomy', 'wp\_usermeta', 'wp\_users', 'wp\_wc\_admin\_notes', 'wp\_wc\_admin\_note\_action', 'wp\_wc\_category\_lookup', 'wp\_wc\_customer\_lookup', 'wp\_wc\_download\_log', 'wp\_wc\_order\_coupon\_lookup', and 'wp\_wc\_order\_product\_lookup'.

12. In a browser of your choice type in <http://localhost/HalsHardware/> and you should be presented with our website:
